EXPERIENCE

Data Analyst/ ML Engineer | CanAI Garage

Feb 2026 – Present

- Worked with 40+ co-op students across Canada to develop solutions for internal government partners.
- Used CanAI data to create Power BI dashboards, PowerPoint presentations, and relay information to full time employees.
- Made use of GC data sets for training sovereign LLM models to be used in other GC products.

Grocery Clerk | Coleman's Market

Sept 2020 – Jan 2024

- Held responsibility of providing weekly changes of shelf position and item inventory.
- Mentored new employees in terms of safe and effective methods of upholding store values.
- Assisted customers with any questions or concerns in a friendly and efficient manner.

PROJECTS

Power Apps Student Trading Card Lookbook

May 2026

- Created using Microsoft Powerapps, Excel, and Microsoft Lists
- Responsible for creating the Excel spreadsheet used to collect student data, restricted by the use of VBA, and the current Powerapp frontend
- Designed to be viewed by external GC members to learn about CanAI's students and their skills

"Thirdle" Word-Guessing Game | Personal Project

Aug 2025

- Created in Python, designed to run inside the user's terminal.
- Improves on the original game by allowing unlimited rounds, different lengths of words to solve, and runs locally.
